<u>INSTRUCTIONS</u>: Many people have thought of suicide at least once. Others have never considered it. Whether you have considered it or not, we are interested in the reasons you would have for **not** committing suicide if the thought were to occur to you or if someone were to suggest it to you.

On the following pages are reasons people sometimes give for **not** committing suicide. We would like to know how important each of these possible reasons would be to you at this time in your life as a reason to **not** kill yourself. Please rate this in the space at the left on each question.

Each reason can be rated from 1 (Not At All Important) to 6 (Extremely Important). If a reason does not apply to you or if you do not believe the statement is true, then it is not likely important and you should put a 1. Please use the whole range of choices so as not to rate only at the middle (2, 3, 4, 5) or only at the extremes (1, 6).

In each space put a number to indicate the importance to you of each reason for **not** killing yourself.

- 1. Not At All Important (as a reason for **not** killing myself, **or**, does not apply to me, I don't believe this at all).
- 2. Quite Unimportant
- 3. Somewhat Unimportant
- 4. Somewhat Important
- 5. Quite Important
- 6. Extremely Important (as a reason for **not** killing myself, I believe this very much and it is very important).

Even if you never have or firmly believe you never would seriously consider killing yourself, it is still important that you rate each reason. In this case, rate on the basis of **why killing yourself is not or would never be an alternative for you**.

In each space put a number to indicate the importance to you of each for **not** killing yourself. 1. 4. Somewhat **Important** Not At All Important 2. Quite Unimportant 5. Quite Important 3.
